SCHOOL OF NATURAL  
RESOURCES AND THE  
ENVIRONMENT

**Program Overview** | This experiential internship program is designed to provide University of Arizona students with real world opportunities to develop workforce-relevant skills by engaging with the community on water-related issues in partnership with the Watershed Management Group (WMG).

**Contact an Internship Program Coordinator at the School of Natural Resources and the Environment:**

Katie Hughes  
Academic Advisor  
520-621-7260  
[khughes@email.arizona.edu](mailto:khughes@email.arizona.edu)

**Commit to a Year of Academic Credit:**

- Register for 3 Fall units of 393/493/593
- Register for 3 Spring units of 393/493/593

**Choose an Internship Track (examples include):**

- Geospatial Technologies
- Media and Communications
- Environmental Education
- River Restoration Planning

In addition to the internships, students will participate in skills-development workshops, maintain a journal or blog, and develop a professional portfolio as they become part a strong cohort prepared to be leaders in the workforce and ambassadors for environmental stewardship and community responsibility.
